Hotels and Resorts

Guaranteed Food and Beverage Cost Savings with **No Up-Front Fees**

Scottsdale, Ariz., June 20, 2007 -- Stark Service Solutions is the state of the art customer satisfaction company for the Hospitality Industry. Keith Williams, Executive Vice President, announced today a new division for food and beverage cost control and services: **The Food & Beverage Wizards.**

This new division is lead by Williams and his team of professionals; each with over 25 years in the country's leading hotels and resorts. The Food & Beverage Wizards offer a revolutionary concept; there are no up front fees for their service other than travel costs. If the hotel qualifies, we guarantee food and beverage cost savings and the only fees are based on a percentage of what you actually save in food/beverage costs.

"It's truly a win-win program," says Williams, "If we don't save you money, the program doesn't cost you a thing. We make our money from what we **save** the hotel or resort so there's nothing to lose. It is as simple as that. With diminishing profits in a number of properties, why wouldn't you call us? We can assist you in increasing your profits."

Start increasing your profits now! Contact us today at <http://www.starkservicesolutions.com/fbwizards.html> or call us at 1.866.281.5062
